Specifications

- **Multisport scoreboard**, suitable for small-size gymnasiums and sports halls.
- **Viewing distance**: 90m for 20cm high digits, 50m for 15cm high digits.
- **Viewing angle**: 150°.
- **Displayed functions**:
  - Game time [00:00 - 99:59]: digits 20cm high.
  - Team scores [0 - 199]: digits 20cm high.
  - Period [0 - 9, E]: digit 15cm high.
  - Penalty times [0:00 - 9:59] / Team fouls / Sets won [0 - 99]: digits 15cm high.
  - Timeout [3 light indicators per team]: diameter 1.5cm.
  - Ball possession / Service / Turn [1 light indicator per team]: diameter 1.5cm.
- **Compliant with DIN 18032-3 and UNI 9554:1989 standard** on "Resistance to damage from balls" (YouTube video).
  No front protection cover is required. You save on the cost of a protective cover, full visibility is guaranteed, and access to the scoreboard is easy.
- To be used together with **Console-300** and **Console-700**, the latter for wireless communication.
- **Reliable wireless communication**: by 2.4GHz FHSS (Frequency Hopping Spread Spectrum) radio transmission to avoid interferences. The use of a wireless system reduces costs by eliminating the need of a cable connection between console and scoreboards.
- Suitable for **indoor application**.
- **Shipping is cheap and fast**. The scoreboard is especially designed to be taken apart into smaller modules that are easy to assemble. This allows it to be shipped via all major couriers at a low cost and with faster delivery times to all countries.
- **Easy to install**. Installation instructions in 5 languages. Supplied with brackets for wall mounting.
- **Game timer**. Using the Control Console (see ACCESSORIES) you can choose different operation modes depending on the sport selected: game and interval time, count back or forward, display last minute tenths of a second, display time of day, etc..
- **Clock function** to display time of the day, also with unplugged console.
- **The horn** can be sounded manually or automatically when the time expires, producing a strong acoustic signal [120dB(A) at 1m] with adjustable duration and intensity.
- **Robust container** made from powder-coated aluminum. Front panel made from anti-glare polycarbonate.
- **All the internal parts can be accessed from the front** for easy maintenance.
- **Large angle, high quality SMT LED digits**, with a typical life of 100,000 hours.
- **Power supply**: 100-240VAC, 50/60Hz, 165VA. Supplied with power supply cable and plug (plug type can be chosen when ordering).
- **Guarantee:** 2 years (info).
- **Dimensions and weight**: 140x108x9cm, 30kg.
