

KIT30s (Art. 271)

The **KIT30s** is designed for displaying ball possession time and timeout in Water Polo. Current regulation possession time is 30 seconds.

The **KIT30s** is composed of two 30-seconds display panels, a command console, and a 24V power supply unit which secures isolation of the electrical power supply. The power supply unit comes with a 20m cable for connection from points far from the pool.

CHARACTERISTICS

- Possibility of modifying possession time and timeout from **1 to 99 seconds**.
- **20cm**-high digits in red. Visibility: 70m.
- Green light on display indicating the time count in action.
- End of time acoustic buzzer on each display.
- Connecting cables to the 2 display panels: 1 x 20m + 1 x 40m, supplied
- Connecting cable to the power supply unit for securing isolation of the electrical mains: 1 x 20m, supplied.
- Conformal Coating (anti-moisture) of the electronic boards.
- Possibility of adding two more 30-seconds display panels (art.273).
- Power supply: 230Vac or 115Vac, 40VA MAX., to choose from when ordering.
