

Console-300 art.307-01

Control console for managing FC, FS, FW, FOS, TM series multisport scoreboards. 2x20 LCD display and membrane keyboard. Wired connection.

•

Key features

- Multisport console, ideal for managing many different sports: basketball, volleyball, handball, water polo, hockey, football, futsal, rugby, tennis, and other sports with the same features of other sports already managed.
- 2x20 LCD display and membrane keyboard.
- Robust metal case.
- Supplied with power supply unit.
- Guarantee: 2 years. ([info](#))

Specifications

- 2x20 LCD display and membrane keyboard.
- Ideal for managing many different sports, such as basketball, volleyball, handball, football, futsal, hockey, rugby, tennis, water polo, and other sports with the same features of other sports already managed (table tennis, badminton, bocce, basket 3x3, floorball, squash).
- Wired communication with the scoreboards. 2 outputs are available; up to 8 scoreboards can be connected to each output.
- Robust metal case.
- The ball possession time can be managed either directly from the console or through the additional "Time-Console-03" console, art.232-03.
- The Console-300 is not suitable to handle the ball possession time for FIBA level 1 and 2 competitions because it does not handle the tenths of a second in the last 5 seconds.
- Dimensions and weight. 28.5x10.5x8 cm, 1.3kg.
- Guarantee: 2 years. ([info](#))

Parts included in the supply:

- 100-240V universal power supply unit.

Product options, selectable after adding the article to the basket:

- Type of power supply unit plug.
